by Lori-Ann Murphy

**"Embrace the Bond of Sisterhood: Let's Reel in the Adventure Together!"**

Sisterhood is contagious. And when you bring a group of women from all over the world to celebrate their passion for being in the great outdoors fly fishing - well, that's just damn fun!

It doesn't take me long to get a huge smile on my face when I look at pictures from women I have had the honor of meeting on our Reel Women trips and schools. I'm filled with joy when I recall belly laughter initiated from some silly event on the river or flat out goofiness at dinner.

As I reflect on the remarkable moments shared during our fly fishing trips, I am filled with an overwhelming sense of gratitude for the incredible sisterhood that has blossomed among us. In the midst of the tranquil waters, laughter echoing through the canyons, and the thrill of casting our lines, we have forged bonds that transcend the simple act of fishing. Our adventures have become more than just trips; they have become reassured memories etched in our hearts.

In the early days of Reel Women, my fellow guides on the river would say, "Oh, we heard you had another seance last night L-A." And I'll admit to a resemblance of truth to this as I would attempt to make a safe place for women who didn't know each other, but loved their fly fishing. I have seen women come right out of their shell and show their new friends the woman they are and want to be more often in their lives. But this isn't something you can control. It's more like planting seeds and watching them grow in fertile soil. It's about being a part of something that is unique and not copied. It's about the right ingredients and then discovery.

Travel, Your time, breathtaking rivers with wild trout, feeling the pull of your drift boat in moving water from oars you just learned to use, a cast that blows your mind, fish finding skills that keep your curious self riveted for hours.

We have witnessed together and felt the amazing heart opening from big cries, hugs, fish bragging, fish disasters, big bruises from tripping while stalking fish, hysterical laughter that can't be stopped, witnessing the most amazing hatch, witnessing tarpon rolling and eating your fly and grabbing a sister's hand in a time of need.

Yes, and that fills our hearts. And this is why we keep doing it.

Sisterhood in fly fishing is flourishing. A desire for this full-throttle joy seems to be something most of us count on for balance in our lives. It's a personal journey but also one that is witnessed by your friends and family. Sharing goodness with your fish stories! Igniting passion in your circle of life.

We can design and set up trips for you, but it is YOU that makes our trips.

We have kept our trips and schools reasonably priced so "most" can attend. We are not a huge travel company - we are a few humans that really care about you. We are your fly fishing coach - and yes, we want to see you up your game or just come and laugh together.

As we eagerly look forward to the upcoming season, I want to extend a heartfelt invitation to all our wonderful clients and potential new anglers to join our sisterhood of anglers. Whether you are a seasoned fly fishing enthusiast or just dipping your toes into the world of angling, we promise you an unforgettable experience filled with adventure, laughter, and the joy of connecting with nature.

Join us, and together, let's immerse ourselves in the tranquility of the rivers, or revel in the thrill of catching that perfect fish. Beyond the incredible fishing, you will discover a community of like minded women who share your passion for the sport and your love for the great outdoors.

As we embark on the new season we need to hear from you. Help us build our trips to be the best they can be. Let's celebrate the bonds we've built and the memories we've created. Sign up now to secure your spot, and let the spirit of sisterhood in fly fishing ignite a fire within you. We promise you an experience that will stay with you long after the cast is made.

"Cast to your dreams gal pals!"

L-A
